

FOR TOPICAL DERMATOLOGICAL AND EXTERNAL USE ONLY.

Rx Only

INDICATIONS FOR USE

Under the supervision of a healthcare professional, HYLATOPIC™ Emollient Foam is indicated to manage and relieve the burning, itching and pain experienced with various types of dermatoses, including atopic dermatitis, allergic contact dermatitis and radiation dermatitis. HYLATOPIC Emollient Foam also helps to relieve dry, waxy skin by maintaining a moist wound & skin environment, which is beneficial to the healing process.

CONTRAINDICATIONS

HYLATOPIC is contraindicated in persons with a known hypersensitivity to any of the components of the formulation.

WARNINGS

Use only as directed. **Keep out of the reach of children.** Avoid contact with eyes. For topical use only. Not for ophthalmic use. Contents under pressure. Do not puncture or incinerate container. Do not expose to temperatures above 120°F (49°C). Do not apply within four hours prior to a radiation session.

PRECAUTIONS AND OBSERVATIONS

- HYLATOPIC Emollient Foam does not contain a sunscreen and should not be used prior to extended exposure to the sun.
- If clinical signs of infection are present, appropriate treatment should be initiated; use of HYLATOPIC Emollient Foam may be continued during the anti-infective therapy.
- If the condition does not improve within 10-14 days, consult a physician.
- HYLATOPIC Emollient Foam may dissolve fuchsin when this dye is used to define the margins of the radiation fields to be treated.

INSTRUCTIONS FOR USE

Shake Vigorously, Tap Bottom of Can, and Prime Before Initial Use. Shake Vigorously and Tap Before Each Use.

To Prime: After shaking, gently tap bottom of can onto palm of other hand or a solid surface at least 3 times. Hold the can upright, direct away from patient, and firmly depress the actuator for 1 to 3 seconds or until foam begins to dispense. (If foam does not dispense within 3 seconds: re-shake can, gently tap bottom of can onto a solid surface at least 3 times, and depress the actuator again until foam begins to dispense.)

Before Each Use: Shake vigorously and gently tap bottom of can onto palm of other hand or a solid surface at least 3 times.

During Use: Holding can upright, dispense HYLATOPIC Emollient Foam into palm of hand and apply to affected area 3 times per day, or as directed by a physician. Massage gently into the skin until completely absorbed. If the skin is broken, cover HYLATOPIC Emollient Foam with an appropriate dressing. Wipe off any excess foam from actuator after use.
