

## PRIME BEFORE INITIAL USE:

**1.** Shake vigorously

**2.** Gently tap bottom of can onto palm of other hand or a solid surface at least 3 times.

**3.** Hold the can upright, direct **away from the patient**, and firmly depress the actuator for 3 seconds or until foam begins to dispense.

**If foam does not dispense within 2 seconds:**

- Re-shake can
- Gently tap bottom of can onto a solid surface at least 3 times
- Depress actuator again until foam begins to dispense

## BEFORE EACH USE:

Shake vigorously. Gently tap bottom of can onto palm of other hand or a solid surface at least 3 times.

## DURING USE:

After shaking and tapping the can, hold the can upright, dispense foam into palm of hand, apply to affected area and rub in completely. Wipe off any excess foam from actuator after use.

**Please refer to the product Package Insert for Additional Use Instructions and other important product information.**
